

Lucy Murray
16.2 support and Money Skills Counselor
303-399-7096
lucymurry@aol.com

Lucy Murray is a CPA, a Qualified Pension Administrator and has a Master of Taxation.

Lucy works with Matthews & Matthews to support our clients in putting together their required 16.2 financial documentation. **Lucy will come to your home and work with you directly to gather what you need, organize the information and fill out the Financial Affidavit correctly.**

Given the financial disruption that occurs in any divorce situation, Lucy is also available to work with you to gain better control over your finances now and following your divorce. She can work with you to accomplish the following:

- Learn simple budgeting tools
- Set financial goals
- Determine if it is possible to remain in the family home following a divorce.
- Organize all your financial data
- Manage credit card and other debt
- Get you to a point where you have a comfort level about your day-to-day finances and a plan to reach the goals you are committed to.

For support in determining net worth (which is part of the required information under Rule 16.2) and filling out your financial affidavit, ***working with Lucy will cost much less than using paralegal support from our office*** and, Lucy is better qualified anyway.

Lucy's hourly rates are extremely reasonable and she is a master of assisting you to take what may look like a massive task and make it very doable. We highly recommend Lucy when you need support with handling the financial tasks of your case.

Leslie Matthews, JD
